**”We have made
our frame simple.
Reduced to
it’s core form
and given it
transparency.”**

Two new editions to the FRAME collection

Personalise your walls even more with MOEBE's new size and colours. MOEBE has introduced a black and a white version of its newly introduced A2 FRAME.

”We wanted to give people more options to personalise their home. The MOEBE FRAME is an easy way to give your home character. Whether you prefer a more soft and subtle look or wish to add more contrast to your walls. With our extended FRAME collection you can choose the colours and sizes that fit your interior best.”

With the black and the white frame in the A2 size, you can hang your larger prints in a MOEBE FRAME or let smaller prints such as A3 float freely in a see through passe-partout.

The white edition is completed by an all white frame and all white rubber band, giving the frame a clean look. The white frame is perfect for decorating coloured walls or for giving your white walls a simple and minimalistic look. On the contrary, the black frame is great to add some contrast to your white walls. With its almost floating thin black lines, the black frame provides a more graphical expression.
